To whom it may concern,

Corey Pearce was a participant in a two day workshop facilitated by the Hamilton Health Sciences Autism School Support Program. Topics covered included:

- 1) An introduction to Applied Behaviour Analysis (ABA)
- 2) The functions of behaviour
- 3) How to complete a functional behaviour assessment (FBA)
- 4) Positive behavioural supports
- 5) Replacement skills
- 6) Reactive and Proactive strategies
- 7) ABC charts
- 8) Scatter plots

Corey offered an insightful view about how autism manifests itself in students with ASD.
